Clarity Human Services: October 2022 Feature Updates

Release Schedule:

- All Training Sites: Monday, October 3, 2022
- All Production Sites: Monday, October 17, 2022

Audit Logs - Referrals

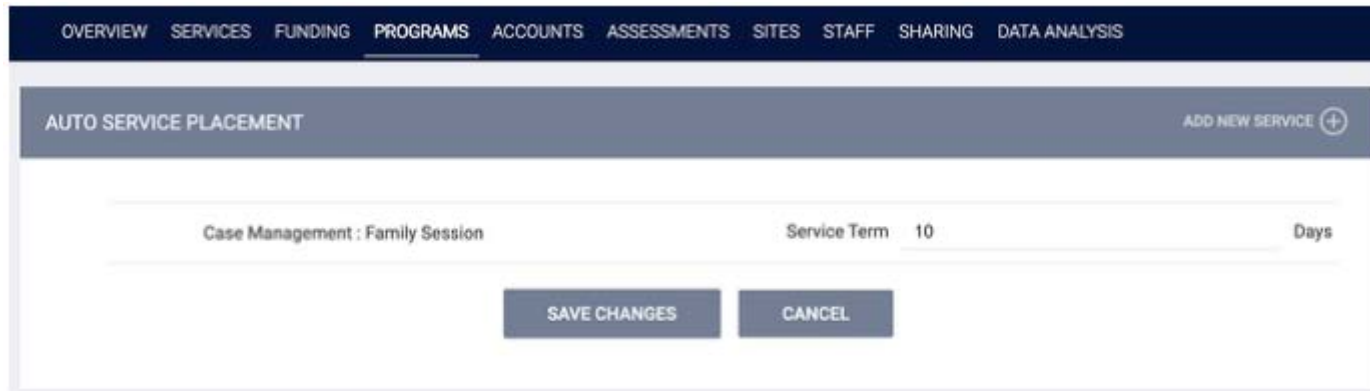

Bitfocus has added an Audit Log for Referrals so that we may now review actions that can be entered or adjusted on the Referrals tab. This includes:

- Updating these fields:
 - [Case Manager](#)
 - [Status](#)
 - [Send to Community Queue](#)
 - [Denied By Type](#)
 - [Denied Reason](#)
 - [Denial Information](#)
- Updating the [Private](#) toggle
- Clicking the [CHECK-IN](#) button
- Adding or deleting a [REFERRAL CONNECTION](#)
- Sending or deleting a [Note](#)
- Assigning a [Navigator](#)
- Updating fields in the [REASSIGN](#) section
- Updating fields in the [MOVE TO ANOTHER QUEUE](#) section
- Updating fields in the [REMOVE FROM QUEUE](#) section
- [Deleting or restoring](#) a referral
- A referral automatically moving from [Pending to the Community Queue](#) or from the [Community Queue to Expired](#).

Multiple Attendance Auto Placement

When a client is enrolled into a program that has Auto Service Placement for a Multiple Attendance Service with a Service Term of more than one day, the system automatically creates service records in the client's HISTORY tab for the number of days specified in the Service Term field.

-For example, consider an Auto Service Placement with a Service Term set to 10 days.

The screenshot shows a software interface with a dark blue navigation bar at the top containing the following menu items: OVERVIEW, SERVICES, FUNDING, PROGRAMS, ACCOUNTS, ASSESSMENTS, SITES, STAFF, SHARING, and DATA ANALYSIS. Below the navigation bar is a light blue header for the 'AUTO SERVICE PLACEMENT' section, which includes an 'ADD NEW SERVICE (+)' button on the right. The main content area is white and contains a form with two input fields: 'Case Management : Family Session' and 'Service Term 10 Days'. At the bottom of the form are two buttons: 'SAVE CHANGES' and 'CANCEL'.

Multiple Attendance Auto Placement

Now, when Auto Placement happens, the system will create 10 service records for the client:
